18 Q. And you, as we saw earlier, used LC
19 Growth's login credential to download materials from
20 the Oracle website?

21 A. Well, again, from -- again, from the
22 contract perspective we were authorized by the
23 client, LC Growth They had access and rights to the
24 website because they had paid for support. And so
25 we believe they acted fully within their license
00429:01 rights.

02 Q. You would agree with me that LC Growth had
03 no use for those materials because it had not,
04 itself, implemented the software, right?

05 A. Well, I won't say what LC Growth would or
06 wouldn't have use for.
